

## Math Class/Support Parent Survey

In order to better suit the needs of our participants, please take a moment to complete our survey. We will compile the data and attempt to tailor instruction to the needs of your child.

1. What is your purpose for registering your child for our math class and/or math support class?
2. What are your child's greatest strengths in math?
3. What, if any, are problem areas for your child in math?
4. What level would you say your child is currently working on in math? Be as specific as possible.
5. What is your child's attitude toward math? Explain.
6. Are you registered (or planning to register) through an independent study provider? If so, which one? If not, are there other sources you are using to maintain a core curriculum plan?
7. Do you have a math curriculum that you are planning to use with your child? If so, which one?
8. What do you hope your child will accomplish during the math sessions at *One Spark Academy*?
